# Victor Hagea

"In contrast to many other representatives of the diverse art movements, I don't question the classical values of art but rather try to use them in a new way and in a modern context. Delacroix's statement that 'painting should be a feast for the eyes' has not lost its currency and meaning but opens up new perspective for the realization of my ideas."

PoR: Germany, 81539 Munich  
M: painting: oil on canvas
